# Anti-Vibration Tape

Temprotech provide shipyards, contractors and outfitters with flame retardant protection products that meet the exacting demands of the Shipbuilding, Shiprepair and Offshore markets.

Protecting floors, surfaces or equipment and maintaining clean work environments are essential to the successful progress and completion of new building or installation projects and during periods of maintenance, repair or refurbishment.

Flame retardant protection materials can reduce dirt, spillages overspray and accidental damage, and eliminate fire hazards for a safer working environment, saving time and money on clean-up, replacement and repairs before handover.

Manufactured from closed-cell impact foam and a pressure-sensitive, water-based acrylic adhesive, this tape has been tested to the highest standards and approved by the Institute of Naval Medicine (INM). This specialist tape provides a vibration and rattle-free seal between structural steel and panelling systems or pipework and HVAC trunking.

<b>Part No.</b>	<b>TPTTAFRO3000</b>
<b>Construction</b>	Closed cell polyolefin impact foam coated with a pressure sensitive water-based acrylic adhesive
<b>Thickness</b>	4mm
<b>Roll Width</b>	40mm
<b>Roll Length</b>	50m
<b>Roll Weight</b>	0.30kg
<b>Colour</b>	Anthracite
<b>Approvals</b>	INM - Institute of Naval Medicine
