# Impact Foam

Temprotech provide shipyards, contractors and outfitters with flame retardant protection products that meet the exacting demands of the Shipbuilding, Shiprepair and Offshore markets.

Protecting floors, surfaces or equipment and maintaining clean work environments are essential to the successful progress and completion of new building or installation projects and during periods of maintenance, repair or refurbishment.

Flame retardant protection materials can reduce dirt, spillages overspray and accidental damage, and eliminate fire hazards for a safer working environment, saving time and money on clean-up, replacement and repairs before handover.

Closed-cell polyolefin foams provide lightweight, high performance protection and offer superior cushioning and impact resistance, with the added benefit of acoustic and thermal insulation.

Impact foams are water repellent and are resistant to most oils and chemicals.

Available in a wide range of thicknesses and densities, these lightweight, flexible and easy to cut foams also offer significant labour efficiencies, time and cost savings in their fitting and removal.

STANDARD ITEMS			
Part No.	TPT535LDA	TPT1035LDA	TPT5125HDB
Thickness	5.0mm	10.0mm	5.0mm
Density	35kg/m <sup>3</sup>	35kg/m <sup>3</sup>	125kg/m <sup>3</sup>
Width	1.5m	1.5m	1.3m
Length	100m	100m	2.0m
Area	150m <sup>2</sup>	150m <sup>2</sup>	2.6m <sup>2</sup>
Weight	26kg	52kg	1.6Kg
Sheets per Pallet	-	-	250 sheets
Colour	Anthracite	Anthracite	Blue
Approvals	French Norms M1	French Norms M1	BS476: Small Flame
